

My Home USB - API Endpoints Report

Total APIs: 528 endpoints across 10 route files

Authentication & Security

Method	Endpoint	Purpose
GET	/api/auth/setup-status	Check initial setup status
POST	/api/auth/initial-setup	First-time system setup
GET	/api/security/status	Security dashboard status
GET	/api/security/audit-logs	View security audit logs
POST	/api/auth/login	User login
POST	/api/auth/demo-login	Demo/test login
POST	/api/auth/forgot-password	Password reset request
POST	/api/auth/reset-password	Reset password with token
POST	/api/auth/invite-user	Invite new user
GET	/api/auth/verify-invitation/{token}	Verify invitation token
POST	/api/auth/setup-password	Setup password from invite
GET	/api/auth/invitations	List pending invitations
DELETE	/api/auth/invitations/{id}	Cancel invitation
POST	/api/auth/resend-invitation/{email}	Resend invitation email
GET	/api/auth/me	Get current user profile
POST	/api/auth/logout	Logout

CRM & Sales Pipeline

Pre-Sales (3)

Method	Endpoint	Purpose
GET	/api/crm/pre-sales/dashboard	Pre-sales dashboard stats
GET	/api/crm/pre-sales/leads	List pre-sales leads
POST	/api/crm/pre-sales/leads	Create pre-sales lead

Sales Leads & Pipeline (18)

Method	Endpoint	Purpose
POST	/api/crm/leads	Create sales lead
PATCH	/api/crm/leads/{id}/stage	Move lead to stage (with intercepts)
GET	/api/crm/leads/{id}	Get lead detail
PATCH	/api/crm/leads/{id}	Update lead
PATCH	/api/crm/leads/{id}/appointment	Schedule appointment
POST	/api/crm/leads/{id}/remarks	Add remark to lead
POST	/api/crm/leads/{id}/follow-ups	Schedule follow-up
PATCH	/api/crm/leads/{id}/follow-ups/{fu_id}/complete	Mark follow-up done
GET	/api/crm/sales/dashboard	Sales dashboard stats
GET	/api/crm/sales/leads	List sales leads (with auto-followup move)
GET	/api/crm/sales-overview	Sales overview cards

My Home USB - API Endpoints Report

Project Onboarding (4)

Method	Endpoint	Purpose
POST	/api/crm/leads/{id}/collect-advance	Collect advance payment
POST	/api/crm/leads/{id}/send-to-accountant	Send to accountant verification
POST	/api/crm/leads/{id}/accountant-verify	Accountant verifies (auto-moves to Project Onboarded)
POST	/api/crm/leads/{id}/move-to-planning	Move project to planning team

Site Visit Management (7)

Method	Endpoint	Purpose
GET	/api/crm/sr-site-engineers	List Sr. Site Engineers
GET	/api/crm/site-engineers	List all Site Engineers
GET	/api/crm/ongoing-projects	Ongoing projects for site visits
POST	/api/crm/leads/{id}/assign-site-visit	Assign site visit (Client Land / Our Projects)
POST	/api/crm/leads/{id}/assign-jr-engineer	Sr. Engineer assigns Jr. Engineer
POST	/api/crm/leads/{id}/complete-site-visit	Mark site visit done
GET	/api/crm/my-site-visits	Engineer's assigned visits (today/upcoming/past)

Stages & Custom Fields (8)

Method	Endpoint	Purpose
GET	/api/crm/stages	List pipeline stages
POST	/api/crm/stages	Create stage
PATCH	/api/crm/stages/{id}	Update stage
DELETE	/api/crm/stages/{id}	Delete stage
GET	/api/crm/stages/with-counts	Stages with lead counts
GET	/api/crm/custom-fields	List custom fields
POST	/api/crm/custom-fields	Create custom field
PATCH/DELETE	/api/crm/custom-fields/{id}	Update/delete custom field

Rough Estimate (RE) Projects (12)

Method	Endpoint	Purpose
GET	/api/crm/re-projects	List RE projects
GET	/api/crm/re-projects/search	Search RE by number
GET	/api/crm/re-projects/by-number/{num}	Get RE by number
GET	/api/crm/re-projects/{id}	RE project detail
PATCH	/api/crm/re-projects/{id}	Update RE project (with change log)
GET	/api/crm/re-projects/{id}/change-logs	View edit history
POST	/api/crm/re-projects/{id}/submit-for-approval	Submit RE for GM approval
PATCH	/api/crm/re-projects/{id}/approve	GM approves RE
POST	/api/crm/re-projects/{id}/send-to-client	Send RE to client
POST	/api/crm/re-projects/{id}/client-feedback	Record client feedback
POST	/api/crm/re-projects/{id}/client-approve	Client approves RE
POST	/api/crm/re-projects/{id}/create-revision	Create RE revision

My Home USB - API Endpoints Report

Marketing & Distribution (7)

Method	Endpoint	Purpose
GET/PATCH	/api/marketing/distribution-settings	Lead distribution settings
GET	/api/marketing/dashboard	Marketing dashboard
GET/POST	/api/marketing/team-members	Manage marketing team
POST	/api/marketing/assign-lead/{id}	Assign lead to team member
GET	/api/marketing/all-leads	All marketing leads
DELETE	/api/marketing/leads/{id}	Delete marketing lead

Google Sheets Integration (16)

Method	Endpoint	Purpose
GET	/api/sheets/config	Sheets configuration
GET	/api/sheets/oauth/login	Google OAuth login
GET	/api/oauth/sheets/callback	OAuth callback
POST	/api/sheets/disconnect	Disconnect sheets
POST	/api/sheets/preview	Preview sheet data
POST	/api/sheets/preview-all-tabs	Preview all tabs
POST	/api/sheets/import-all-tabs	Import all tabs
POST/GET	/api/sheets/sources	Sheet sources management
POST	/api/sheets/import	Import single sheet
POST	/api/sheets/import-all	Import all sheets
POST	/api/sheets/export	Export data to sheets
POST/GET	/api/sheets/auto-sync/config	Auto-sync configuration
POST	/api/sheets/auto-sync/run	Run auto-sync
GET	/api/sheets/connected	Connected spreadsheets
GET	/api/leads/sources	Lead sources

Operations & CRE

CRE (Client Relationship) (18)

Method	Endpoint	Purpose
GET	/api/cre/dashboard	CRE dashboard
GET	/api/cre/new-deals	New deals list
POST	/api/cre/convert-deal/{id}	Convert deal to project (with advance)
POST	/api/cre/convert-re-project/{id}	Convert RE project to project
PATCH	/api/cre/projects/{id}/accountant-verify	Accountant verify project
PATCH	/api/cre/projects/{id}/send-to-planning	Send to planning
PATCH	/api/cre/projects/{id}/move-to-drawing	Move to drawing
GET	/api/cre/payment-requests	Payment requests
POST	/api/cre/projects	Create project
PATCH	/api/cre/projects/{id}/submit	Submit project
POST	/api/cre/projects/{id}/add-payment-milestone	Add payment milestone
GET	/api/cre/projects/all	All CRE projects
POST	/api/cre/projects/request-re	Request rough estimate

My Home USB - API Endpoints Report

Planning (12)

Method	Endpoint	Purpose
GET	/api/planning/dashboard	Planning dashboard
GET	/api/planning/projects	Planning projects
PATCH	/api/planning/projects/{id}/submit-for-approval	Submit for approval
GET	/api/planning/stage-dashboard	Stage dashboard
GET	/api/planning/projects-by-stage	Projects by stage
PATCH	/api/planning/projects/{id}/update-stage	Update project stage
GET	/api/planning/projects/{id}/stage-history	Stage history
GET	/api/planning/payment-schedule-overview	Payment schedule overview
GET	/api/planning/monthly-schedule	Monthly schedule
POST	/api/planning/monthly-schedule/add-stages	Add stages to schedule

Approvals (5)

Method	Endpoint	Purpose
GET	/api/approvals/projects	Projects pending approval
PATCH	/api/approvals/projects/{id}/gm-approve	GM approval
PATCH	/api/approvals/projects/{id}/final-approve	Final approval
PATCH	/api/approvals/projects/{id}/reject	Reject project

Work Orders (16)

Method	Endpoint	Purpose
GET	/api/work-orders	List work orders
POST	/api/work-orders/labour	Create labour work order
POST	/api/work-orders/material	Create material work order
PATCH	/api/work-orders/{id}/assign	Assign work order
PATCH	/api/work-orders/{id}/stages/{sid}/start	Start stage
PATCH	/api/work-orders/{id}/stages/{sid}/complete	Complete stage
PATCH	/api/work-orders/{id}/stages/{sid}/request-payment	Request payment
PATCH	/api/work-orders/{id}/stages/{sid}/approve-payment	Approve payment

HR Management (16)

Method	Endpoint	Purpose
GET/POST	/api/hr/staff	Staff management
PATCH	/api/hr/staff/{id}	Update staff
POST	/api/hr/staff/{id}/upload-document	Upload document
GET/POST	/api/hr/attendance	Attendance tracking
GET	/api/hr/payroll	Payroll list
POST	/api/hr/payroll/generate	Generate payroll
PATCH	/api/hr/payroll/{id}/approve	Approve payroll
PATCH	/api/hr/payroll/{id}/pay	Process payroll payment
POST	/api/hr/users/create	Create user account

My Home USB - API Endpoints Report

Accountant Operations (20+)

Method	Endpoint	Purpose
GET	/api/accounts/dashboard	Accounts dashboard
GET	/api/accounts/pending-advance-payments	Pending advances
PATCH	/api/accounts/verify-advance-payment/{id}	Verify advance
GET	/api/accounts/pending-payments	Pending payments
PATCH	/api/accounts/process-payment/{type}/{id}	Process payment
GET	/api/accountant/comprehensive-dashboard	Full dashboard
GET/POST	/api/accountant/transactions	Transaction management
GET/POST	/api/accountant/cheques	Cheque management
POST	/api/accountant/payment-request/initiate	Payment request flow

Financial Controls (15+)

Method	Endpoint	Purpose
GET/POST	/api/financial/indirect-costs	Indirect cost management
GET	/api/financial/project-budget-overview	Budget overview
GET	/api/financial/suspense	Suspense account
GET	/api/financial/control-dashboard	Financial control dashboard
GET	/api/financial/audit-logs	Audit trail

Financial

Income Management (7)

Method	Endpoint	Purpose
GET	/api/income	List income entries
GET	/api/income/summary	Income summary
GET	/api/projects/{id}/income	Project income
POST	/api/income	Record income
PATCH	/api/income/{id}	Update income
DELETE	/api/income/{id}	Delete income

Expense Management (18)

Method	Endpoint	Purpose
GET/POST	/api/expenses/material	Material expenses
GET/POST	/api/expenses/labour	Labour expenses
GET/POST	/api/expenses/vendor-service	Vendor service expenses
PATCH	/api/expenses/{id}/payment	Process expense payment
GET	/api/expenses/summary	Expense summary
GET	/api/expenses/pending-approvals	Pending approvals

Cashbook & Suspense (7)

Method	Endpoint	Purpose
GET	/api/cashbook	Cashbook entries
POST	/api/cashbook/manual-expense	Manual expense entry
GET	/api/suspense/overview	Suspense overview
POST	/api/suspense/payment	Suspense payment

My Home USB - API Endpoints Report

Materials & Vendors (16)

Method	Endpoint	Purpose
GET/POST	/api/materials	Material master
GET	/api/materials/categories	Material categories
GET/POST	/api/vendor-master	Vendor master
GET	/api/vendor-categories	Vendor categories
GET	/api/purchase-orders	Purchase orders

Settings & Users (10)

Method	Endpoint	Purpose
GET/POST/PATCH	/api/settings/company	Company settings
GET	/api/users/{id}	User details
PATCH	/api/users/{id}	Update user
GET	/api/roles	Available roles
GET	/api/accountant/cashbook-filtered	Filtered cashbook
POST	/api/accountant/cheque-payment	Cheque payment

Site Operations

Site Engineer (18)

Method	Endpoint	Purpose
POST/GET	/api/site-engineer/assignments	Project assignments
GET	/api/site-engineer/my-projects	My projects
GET	/api/site-engineer/project/{id}	Project detail
POST	/api/site-engineer/material-requests	Create material request
POST	/api/site-engineer/labour-requests	Create labour request
POST	/api/site-engineer/material-receipts/initiate	Material receipt with OTP
POST	/api/projects/{id}/daily-progress	Daily progress report
POST	/api/site-engineer/petty-cash/request	Petty cash request
GET	/api/site-engineer/mini-cashbook	Mini cashbook

Project Manager (8)

Method	Endpoint	Purpose
GET	/api/pm/dashboard	PM dashboard
GET	/api/pm/projects	PM projects
GET/PATCH	/api/pm/material-requests	Review material requests
POST	/api/pm/assign-team	Assign team members
POST	/api/pm/create-site-engineer	Create site engineer user

Accountant Site Ops (14)

Method	Endpoint	Purpose
GET	/api/accountant/material-requests	Material requests
GET	/api/accountant/labour-requests	Labour requests
PATCH	/api/accountant/petty-cash/{id}/issue	Issue petty cash
PATCH	/api/accountant/petty-cash/{id}/settle	Settle petty cash
POST	/api/accountant/record-expense	Record expense

My Home USB - API Endpoints Report

Procurement

Method	Endpoint	Purpose
GET	/api/procurement/dashboard	Procurement dashboard
GET	/api/procurement/requests	Material requests
POST	/api/procurement/start-pricing/{id}	Start pricing process
POST	/api/procurement/pricing/{id}/add-quote	Add vendor quote
PATCH	/api/procurement/pricing/{id}/select-vendor	Select vendor
POST	/api/procurement/v2/generate-po/{id}	Generate purchase order
PATCH	/api/procurement/v2/dispatch/{id}	Dispatch material
POST	/api/procurement/v2/receive/{id}	Receive material
GET	/api/procurement/credit-ledger	Credit ledger
GET	/api/procurement/transit	Transit tracking
GET	/api/procurement/reports/*	Spend reports
GET/POST	/api/packages	Package management
GET/POST	/api/labour-contractors	Labour contractor management

Projects

Method	Endpoint	Purpose
GET/POST	/api/projects	Project CRUD
GET	/api/projects/{id}/comprehensive	Full project details
GET/POST	/api/boq	Bill of quantities
GET/POST	/api/payment-stages	Payment stage management
POST	/api/projects/{id}/payment-schedule/generate	Generate payment schedule
GET	/api/projects/{id}/payment-summary	Payment summary
POST	/api/scope-items/bulk	Bulk scope items
POST	/api/deductions/bulk	Bulk deductions
GET	/api/admin/dashboard-summary	Admin dashboard
GET	/api/admin/financial-overview	Financial overview
GET	/api/projects/{id}/team	Project team
GET	/api/vendor-portal/dashboard	Vendor portal
POST	/api/site-photos/upload	Upload site photos

Architecture & Design

Method	Endpoint	Purpose
GET/POST	/api/projects/{id}/site-plans	Site plan management
POST	/api/projects/{id}/site-plans/{pid}/submit	Submit for approval
PATCH	/api/site-plans/{id}/approve	Approve site plan
GET/POST	/api/projects/{id}/design-files	Design file management

My Home USB - API Endpoints Report

Contractors

Method	Endpoint	Purpose
GET/POST	/api/contractors	Contractor management
GET	/api/contractors/{id}/summary	Contractor summary
GET/POST	/api/labour-work-orders	Labour work orders
GET/POST	/api/labour-attendance	Attendance tracking
GET/POST	/api/material-inventory	Material inventory

File Management

Method	Endpoint	Purpose
POST	/api/files/upload	Upload file
GET	/api/files/{id}/download	Download file
GET	/api/files	List files
DELETE	/api/files/{id}	Delete file

My Home USB - API Endpoints Report

Summary by Module

Module	File	APIs	Key Features
Auth & Security	auth.py	16	Login, invites, password management
CRM & Sales	crm.py	77	Pipeline, leads, RE, marketing, site visits
Operations	operations.py	112	CRE, planning, work orders, HR, accounts
Financial	financial.py	73	Income, expenses, cashbook, vendors
Site Operations	site_ops.py	56	Site engineer, PM, material/labour
Procurement	procurement.py	43	Pricing, POs, transit, credit
Projects	projects.py	112	Projects, BOQ, payments, scope
Architecture	architect.py	13	Site plans, design files
Contractors	contractors.py	22	Contractors, attendance, inventory
Files	files.py	4	File upload/download
TOTAL		528	

3rd Party Integrations

Service	Purpose
MongoDB Atlas	Primary database
Google Sheets API	Lead import/export/sync
Resend	Email notifications
Emergent Object Storage	File uploads
Leaflet/OpenStreetMap	Location mapping
jsPDF / jspdf-autotable	PDF generation
